# FAST FORWARD

Welcome to.....  
**EXPRESS RANCHES** **FAST FORWARD**

On behalf of the Funk Family and the Express Ranches staff  
Welcome to Express Ranches,

We extend our warmest welcome and a personal invitation to each of you to be with us on the evening of October 31st and November 1st for our Fast Forward XVI. We hope you make plans to join us for our sixteenth annual Limousin production sale.

Since starting out in the Limousin business 20 years ago we have grown to be the second largest seedstock supplier in the United States. Our genetics are working in virtually every state and numerous foreign countries. We sincerely appreciate the support and friendship of all of you with your purchases from our breeding program. The offering in this year's sale is the best that we have produced to date.

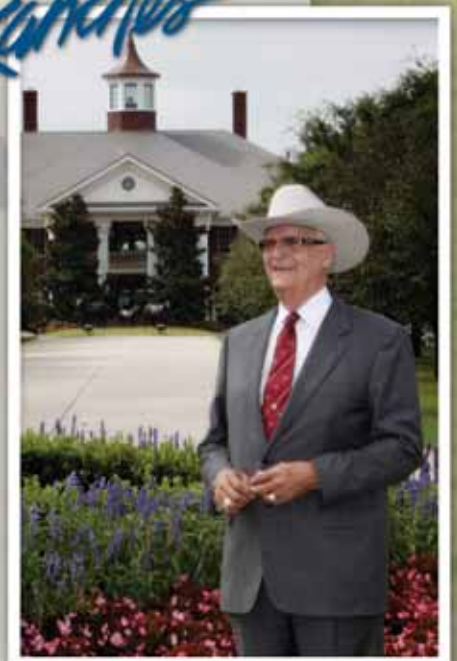

The Express Scholarship Program is outlined in the catalog. It has been extremely gratifying to have awarded over 2 million dollars to junior exhibitors of our cattle and to realize that while this doesn't cover all of their college expense it does hopefully help.

Make plans to be with us for the meal and entertainment featuring Mickey Gilley on Friday evening. On Saturday please join us for Fast Forward XVI with our best genetics from almost 20 years of breeding Limousin Cattle.

Sincerely,

Jarold Callahan

Bob Funk

(L#2845)

Dear Limousin Enthusiasts,

This year marks the 16th annual Limousin production sale for Express Ranches. Over that time Bob Funk, Jarold Callahan, Donnie Robertson and their entire crew are responsible for growing the EX brand to the level that it is now. One of the nation's largest seedstock suppliers and one of the nation's largest ranching operations in all the land. They are recognized in the country as one of the leading Angus and Limousin suppliers. As you view this sale catalog you will quickly realize the 100 lots that make up this sale are something special. Since 1989 the Express Ranches have created, blended and developed their own product that is widely accepted from many of the breed's finest and most aggressive cattleman.

As you view this sale brochure you will quickly realize they are very serious about creating some of the finest Limousin and Limflex cattle. It is important to note that since 1989 Express has concentrated on developing some of the finest cow families in our breed. They have strived to create consistent and predictable genetics that will work well for their strong customer base. They know without a doubt that the customers have to be successful first and pleased with the EXLR genetics. As you would imagine all cattle are 100% guaranteed and sell with all the confidence you have come to expect.

It is an honor for R & R Marketing to be working closely with the marketing of the Express product and we look forward to showing and talking with you about the sale offering. If we can be of any assistance on this sale or if you just want to talk Limousin than don't hesitate to call.

Best Regards,  
Randy Ratliff,  
R & R Marketing Company

Without question one of the very finest Limflex females to exist in our entire breed is EXLR Rebeca 1019P. As you can tell by her picture and as you will see on sale day, she is truly amazing. She is sired by the leading marbling Angus sire, BR Midland and has definitely been one of the favorites of the many that have seen her. This female is made perfect from her nice smooth front end to her nice square hip. She is super sound in her structure and near perfect in her pattern. This young female is now entering the prime years of production and is one of the leading ladies of this sale. She just happens to be a daughter of the great brood matron, EXLR Rebeca 614H. The donor 614H is one of the truly great donors to ever be created at Express Ranches. She is a daughter of Wul's Dawson from the long time donor LVLS Rebeca. The 614H is highlighted throughout the front of this catalog and they are some of the finest genetics you can get your hands on.

1019P has earned her right as the leading Limflex donor in the entire breed. She is a past grand champion female in the entire Limflex show in Denver and has went on and continued to produce excellence for Express and Pinegar. Her transplant daughter, AUTO Rebeca 292S, topped the national sale with an appraised value of \$40,000 and was purchased by Wies Limousin, Wellsville, MO. That female went on to be named the grand champion Limousin female of the 2008 Missouri State Fair and has been very competitive every since. Rest assured when investing in this lot 1-the future is bright with her ability to produce excellence and create value for your program. *Co-owned with Pinegar Limousin, Springfield, MO.*

This 75% Limflex heifer is an amazing show heifer and proudly represents the predictable genetics that have been blended and created since 1989 at Express Ranches. This young Pure Power heifer has that amazing show look and balance needed to win in the show ring. This heifer is very calm in her disposition, long bodied and yet still maintains plenty of rib shape and volume.

Rebeca 097U is a big time show heifer and one of the finest ever created at Express Ranches. She is sired by Carrouseles Pure Power and from the elite donor and lot 1 in this sale, EXLR Rebeca 1019P. This heifer is a favorite of many who have seen her thus far and is one that is destined for great winnings in the near future. She is clean up through her front end, angular in her shoulder and very sound in her structure. She will continue the legacy of show champions that have come so easily from this cow family. If want to invest in a female that will have that added value built in, then we urge you to consider this young show heifer.

She will calve by sale day to LESF Asphalt 9N.

Sired by the popular Angus sire, Northern Improvement is this near perfect Limousin brood cow, EXLR Rebeca 7130M. She is packed full of muscle and loads of power backing her unique and prominent profile. This 50% Limflex brood is big in performance and has been a strong producer at Express Ranches. Her dam is EXLR Rebeca 614H, the premier donor and along side 084F is recognized as the big time donor that has secured the foundation at Express Ranches. Many of the sons and daughters of 614H have been sale top-pers and national champions. A daughter EXLR Rebeca 606M, a daughter of AUTO Black Dakota was appraised at \$50,000 and is now owned in partnership with Diehm Limousin. Her full brother EXLR Maximus 610M was one of the top selling bulls in the '03 Express Ranches bull sale and purchased by JL Farms of Virginia. And of course lot 1 in this sale was the \$53,000 valued female now owned with Pinegar Limousin. The lineage of this 614H cow family is beyond recognition and is one of the cornerstone cow families that we appreciate so much at Express Ranches.

**LOT 4B - FIVE EMBRYOS** - Selling five embryos sired by EXLR Excellante 251L. Progeny will be Homozygous Polled, Double Black and 75% Limousin.

One of the sale features is this young daughter of EXLR Rebeca 614H. This homozygous polled, homozygous black daughter of Carrousel's Pure Power is made as near perfect as you would ever want in a potential show heifer. She will carry on the legacy of big time show cattle that stem from the 614H cow family. This young 614H heifer as earned the title as one of the young promising show heifers to ever step foot on soil at Express Ranches. She is feminine and clean up through her front end and very strong across her topline. She is square out of her hooks to pens and stands on a lot of circumference of bone and foot size. If you want to get in the win picture then we urge you to take a strong look and consider this amazing female.

**EXLR EXCELLANTE 251L  
DAUGHTERS FROM 614H**

614H is the dam of this three full sisters sired by EXLR Excellante 251L. 614H has laid down a foundation that is strong, powerful and very consistent. The Excellante progeny are big numbered, long bodied, eye appealing and very sound structured. We are excited to show you these young heifers and look forward to see which one is your favorite.

024U represents the EXLR Rebeca 614H cow family very well and has been recognized as one of the real show prospects of the sale. She is sired by the highly syndicated homo/homo sire EXLR Excellante 251L, a complete outcross to most established lines of black and polled cattle. This young Excellante daughter has the femininity up through her front end and still maintains a ton of rib shape and volume.

We love the results of the mating of EXLR Excellante 251L with that of the famed donor, EXLR Rebeca 614H. This young show heifer prospect has the profile, homozygous polled and black traits and stems from the 614H cow family. There can be chapters written about the 614H cow family and all the successes that have come from them.

Barb proudly represents the Express Ranches Limflex program. She stands for everything they are trying to produce and without a doubt when you see her on sale day you will realize what we are talking about. Barb is a 25% Limflex daughter of the popular Angus sire Bon View New Design 1407. 1407 has made a positive impact in the Angus breed and when used on Limousin females, the results have been very positive. Barb is from a Limflex 50% daughter of EXLR Broadway 041E that has been a mainstay for Express over the years. This young female is in the prime years of her production life and has an amazing and breed leading set of numbers. She has a low birth of -2.3, milk of 29 and one of the highest in our breed for marbling at .54 and one of the highest MTI number of 61.

**LOT 12A** - Heifer, calved 10.01.08, Black, Polled, 75% Lim-Flex, EXLR 287U, sired by Carrousel's Pure Power. BW: 78 lbs.

This 37% Limflex female is made as perfect in her profile and design as you would ever want. She stands strong on lots of substance of bone, big footed, loaded with extra rib shape and volume. She is a very feminine fronted female that is angular through her front end and strong in her stance. We really appreciate the moderation of frame, doing ability and ease in movement on this female. She is from the Angus son of Bon View New Design 1407, HBAR New Design 035 and from a daughter of EXLR Polled Benchmark 709G. This Limflex female is one of the breed's highest in milking ability with a 38 and also has a marbling of .41 and MTI of 58. You have the complete package here with this 37% Limflex female.

In our great breed of Limflex cattle there is nothing better than daughters of BR Midland. He is the record selling \$202,000 sale topper of the Midland Bull Test sale. His daughters continue to bring a premium at the market place across the country and have earned much praise with their production. This 50% Limflex female has earned herself one of the highest marbling numbers in the entire breed with a .50 and MTI number of 60. Her desirable conformation and above average epd's have earned her the right of being one of the top females in this sale offering.

High marbling and high maternal is what you will get when you invest in this brood matron. She is sired by the popular Angus sire, Leachman Diamondback and is from a 50% Limflex daughter of EXLR Polled Benchmark. This female offers a 31 for milking ability and a 49 for MTI. She has earned some of the highest numbers of any of the Limflex cattle in our breed. We really appreciate this brood cow for her sense of style, overall balance and her strong maternal look. When in lactation this female forms a well shaped and beautiful udder that we all will admire.

This may be one of the prettiest and nicest profiling daughters of JCL Lodestar 27L. She is a 75% Limflex female that represents two of the breed's most popular lines of cattle in Lodestar and Rulon. JCL Lodestar 27L is a yearling weight and marbling trait leader and GPFF Blaque Rulon is known for his extra muscle and overall thickness he puts in his offspring. This young female has formed a well shaped udder during lactation and is one that is amazing no matter when you look at her.

Here is a 50% Limflex female that will make your mouth water when you see her. She is sired by the many times national gold medal sire, AUTO Black Dakota and from a strong producing Angus female. This female is everything you can imagine and more. She is super big footed, sound in her structure and very soft in her pasterns. She has so much rib shape and volume it is scary. We love her length up through her front end, strength of top and her overall stance. Great things are going to happen when you put her into transplant. She has earned a 91 for yearling weight and 28 for milking ability.

Now this is what we are talking about! When you say you want to create Limflex cattle that will excel in the industry, than look no further than BOHI Rachel 294R. This homozygous polled, homozygous black daughter of LESF Asphalt 9N is from a well bred Angus female, EXAR Lass 2454, a daughter of Bon View New Design 1407. She is moderate in her frame score, extremely deep in her flank and still has that striking profile. For as much rib shape and volume she has, she still maintains a "cool" look to her. She posts a 29 for milking ability and a .14 for marbling.

**LOT 22A** - Bull, calved 10.07.08, Black, Polled, EXLR 297U, 62% Lim-Flex. Sired by RPLF Rambo 202R. BW: 88 lbs.

Here is a known daughter of the '04 Express Ranches Fast Forward sale, EXLR Rebeca 606M sold for \$25,000 for half interest. She is owned in partnership with the Diehm Family in Indiana and is earning her right as one of the top donors at Express Ranches. This young homozygous polled, homozygous black daughter of Carrouseles Pure Power is so pretty made it is scary. She is striking in her profile, strong topped and very sound in her structure. She has the look, profile and the balance needed to take you straight to the win picture at any major show.

Lot 41 & 42 represent a very consistent mating created at Express Ranches. They are sired by the leading marbling Angus sire BR Midland and from the matriarch donor, LVLS Rebeca. They are low in their birth weight, high yearling weight with breed leading marbling numbers of .36 and .38. These two heifers are proof that great things happen when you mate the finest Angus with the very best in purebred. These two heifers have the consistent and predictable genetics backing them that will assure the new owners more success in the near future. Their numbers and design make them the most comprehensive and complete group of females to carry on the Rebeca cow family.

Due 4.20.09 to EXLR Review 273R.

A true highlight of this sale is this known daughter of ELMW Ginnie P58G, the once national gold medal dam for Circle L and Sugarbush Limousin. Peaches is a full sister to the once national champion and once appraised \$80,000 donor, Carrousel Pina Colada, now owned by P Bar S Ranch, Oklahoma and Edwards Limousin in Missouri. Peaches is a leading donor cow and sells with her BR Midland 50% Limflex female to give us proof as to her excellence. She is a big time female and is one that is ready to headline any program that is willing to make the investment. We can assure you it will be a good one at that.

Co-owned with Bohi Land & Cattle, Wellsville, Mo

*Due 2.15.09 to EXLR Saturn 040S.*

Here is a big time highlight of the sale. This 50% Limflex first calf heifer has proven her worth big time.

She is a daughter of BR Midland from Carrousel's Peaches. She has 103 for yearling weight, 23 for milk and has a marbling number of .34 and MTI of 58. Take a look at her 25% Limflex heifer that will sell off the side of her mother. She is absolutely perfect in her profile, thick made, extremely deep bodied and very eye appealing. This young Limflex heifer has a 110 for yearling weight, 23 for milk, .41 for marbling and 60 for MTI. And the added bonus is she is homozygous polled and homozygous black.

Here is a maternal sister to the 2008 Denver National Junior champion female for the Doublehead family. This homozygous polled, double black heifer is sired by Carrouseles Pure Power and is one that has a really neat look to her. She is clean and feminine up through her front end, thick made and very strong in her stance. If you like your show heifers moderate framed, extra thick made will a load of muscle then you will really appreciate this heifer.

Homozygous polled, homozygous black and a daughter of the highly syndicated, EXLR Excellante 251L is 720U. As you will see on sale day, she is very strong topped and has a nice pattern to her. This heifer is a top show heifer prospect that when entering a showing will get the judges attention with her style and balance. This heifer is very strong in her stance, easy on the eye and very level and square from her hooks to her pens. This is the heifer that will get a lot of attention on sale day.

033U is another top show heifer sired by Carrouseles Pure Power that has a lot of rib shape and volume to go with her amazing profile. She is a moderate framed, easy middled heifer that still maintains a lot of muscle and thickness. For those that say the deeper you get, the more muscle you loose, is wrong in this case. She combines all the positive traits in a beautiful package.

*Lot 65 -*  
**EXLR Lucy 102T**

Listed here are three bred heifers that represent the heart of the Express Ranches program. Sired by such popular sires as Asphalt, Prominent and Pure Power are these three young females. They have the epd's, consistent pedigree and are bred right. All of these heifers sell carrying the service to powerful Angus sires will we believe will result into increase value with their future Limflex calves. These young first calf heifers have the calm docility and have met strict criteria to be offered in this sale. They have met the approval in terms of eye appeal, above breed average in numbers and strength in pedigree that will make a difference to our customer base.

Since the inception of Express Ranches into this great Limousin breed of cattle it has always been the goal to raise cattle that excel in all facets of the industry. We really feel as if we got it right with this young heifer. She is perfect in anyway you look at her! She is sound, easy doing, feminine made and very appealing to only the most discriminating cattleman that have seen her. She is will make one of the finest show heifers in the sale and we know when the banners are hanging in the office and she goes into production, that is when we will see great things happen in production.

*Due 2.15.09 to MAGS Remote.*

Take a close look at how productive this 62% Limflex female is. She is deep in her flank, big middle and very productive looking. She is homozygous for both traits and has earned a milk number of 33 and marbling of .10. If you don't believe the numbers, then just take a strong look at her Carrouseles Pure Power daughter at her side that will sell split off.

*Due 4.07.09 to EXLR Review 273R.*

Homozygous for both traits and a really top notch pair of cattle is what you will find in lot 76 and 76a. The cow is sired by EXLR Right On Time 106J from a daughter of the many times National Gold Medal sire, AUTO Black Dakota. She has a solid set of numbers with a 27 for milk and well above average in all other traits. Her daughter is one of the finest in the sale and is sired by EXAR 263C, an Angus son of Bon View New Design. She is made near perfect, strong in her stance and very eye appealing.

Lawdog is a well made and very desirable looking daughter of TUBB Law Dog. In lactation she has formed a well shaped and uniform udder and has the look and profile needed to stand out in a crowd of cows. She has a purebred daughter of the national champion DHVO Deuce at her side. There would be lots of value her with this young calf at her side.

# New Mexico Ranch

The UU Bar, Mora and Atmore Ranches, Cimarron, NM

Express Ranches began in 1989 soon after Bob Funk acquired his first tract of land, the 180 acre main headquarters, just north of Yukon, Oklahoma. The land borders the north side of the North Canadian River. The historic and fertile ranch is rich in heritage. From 1866 to 1886, over 35,000 cowboys drove 3,000,000 Texas Longhorn cattle from Texas to the northern markets, transportation and ranges up the Chisholm Trail. One of the main points of history on the trail is on the land known as the main headquarters, where the Fast Forward XV and all other Express sales are held. The crossing of the North Canadian River for horses, cattle and cowboys was at the south end of the Express Ranch, and this was the most dangerous point of the trail. The cattle were rested along the valley by the banks of the river, and the hill on the north side of the ranch where the Funk family home now sits was favorite campsite for many cowboys riding up the trail.

The foundation herd of Limousin at Express Ranches was created by the purchase of 52 fullblood females from Fred Spitz and his two sons, Fred Jr. and Kent in 1989. Spitz Farms, operating from Norman, Oklahoma, was one of the model Limousin programs of the time. From this exclusive herd, countless championships were garnered by the Spitz firm. In addition, the Triple Crown Champion Bull, Spitz Navajo, was purchased later that year as a Christmas gift for Bob. With the help of the ranch manager Greg Barnes, additional significant breeding pieces were acquired through auctions from Magness Land & Cattle Co. in Colorado; Ryan Land & Cattle Co. in Texas; AMB Limousin in Oregon; Dorminy Brothers in Georgia; Highland Stock Farms in Alberta, and others. Over a period of three years, Mr. Funk began to assemble one of the greatest cowherds of Limousin ever known.

The Virginia-based Glenmore program was purchased in its entirety, followed by the remaining breeding females from Worrell Land & Cattle Co. in Charlottesville, VA. Furthermore, through the private and public herd dispersals of Rosanky Cattle Co. in Texas; Yackley-CMC Ranches in South Dakota; CMC Corporation in Georgia; and Kissee Cattle Co. in Missouri, over 400 females were added. The Express Limousin program was moving full speed ahead, to say the least.

November 27th, 1993 marked the first Fast Forward production sale of Limousin. The first Fast Forward Sale averaged \$6,655, grossing over \$500,000. The beginning sale served as the launching pad for the now 90 million in purebred cattle sales from Express Ranches.

When Bill Couch - the nationally recognized cattleman across breed lines, and the exhibitor of 13 national champion Simmentals in 16 years - came on board as general manager in 1994, the Express program pole-vaulted into one of the most amazing success stories known to the North American seedstock industry. With Bill's unique and valuable knowledge of the cattle business, national champions and front-lined Limousin cattle became commonplace for the Yukon, Oklahoma-based program.

Bill also brought to Express Ranches one of the most talented groups of cattlemen and agriculture scientists and technicians in the industry. Kevin Hafner was with K-74 Hereford Ranch at Edmond, Oklahoma. Today, Kevin is Vice President of Operations. Kevin and his assistants watch over 5,000 pedigreed cattle and head up the commercial bull and female marketing. Donnie Robertson, native of Kentucky, has had great experience in leading champions from the show ring. Donnie was affiliated with Premier Angus in Cloverdale, Indiana until their disper-

sal. Donnie is Vice President of Marketing and spends a great deal of time traveling to events as well as directing much of the purebred female marketing. Roy Middleton and his team are the in-house ET technicians. Roy will transfer thousands of embryos in a given year.

After serving as the Executive Vice President of NALF and ranch manager of Key Bar Limousin, Dr. John Edwards joined the Express Ranches staff in 2002. John works closely with all aspects of the ranch, with both the Limousin and Angus breeding programs.

No successful breeding program has ever made it to the top without the reliance on the positive influence of herd bulls. From the very beginning, the philosophy at Express was to own the very best herd sires available in the industry, whether purchased or bred from within. When tracing the greatest of proven Limousin herd sires, some of the best have called Yukon home for all of half the breeding season. The first herd sire owned by Express Ranches was the aforementioned Spitz Navajo, and the Triple-Crown sire lies at rest near the entrance to the main ranch. Other early herd sires includes foundation sires as SY Bonanza; Wulf's Capital Gain 0206C; LKCC Expressway 193C; Typesetter; Highland Polled Platinum; SLVL Black Oxen; and MLDY Patriot, among many others. Each one of these early sires contributed to the progress and evolution of the Express breeding program.

KRMC Black Legacy joined the Express program in 1994. The homozygous black son of NICO Polled Legacy was a trait-leading sire for milking ability. The Legacy daughters have made great milking females, and his influence can be noted in the second and third generations of several of the females that sell in Fast Forward XV. His most prominent Express-bred son, EXLR Polled Resolve, was the top-selling bull in the 1998 Spring Bull Sale when he was purchased by Oak Meadows Limousin and ABS Global.

Two full brothers that were back-to-back Denver Champions have made an overpowering impact on Express. Cane Ridge Maverick and Cane Ridge Polled Wyatt are the two full brothers and sons of Wulf's Rambler that were back-to-back National Western Grand Champion Bulls. The popular champions became champions in the breeding pasture, too. Cane Ridge Maverick was used extensively in the herd. His influence was utilized heavily in the lower percentage program, and many females currently in the program trace to Cane purchased by Highland Stock Farms and Associates. Yet another daughter, EXLR Sheza 150F was selected as the Grand Champion Female at the 1997 National Western Stock Show as a ten-month-old heifer calf. The National Champion Cane Ridge Polled Wyatt was mated to virtually every donor female at Express. Of his many progeny born, perhaps EXLR Molly 343G is his most accomplished and proven daughter. The female was selected at the Grand Champion Female at the 1999 National Western Stock Show. EXLR Molly 343G, in turn, produced the AUTO Black Dakota son, EXLR Fully Loaded, who was the Grand Champion Bull at the 2003 American Royal for Deer Valley Farms. EXLR Molly 343G is now a donor female for Limousin Ridge Farm. Yet another popular daughter of Cane Ridge Polled Wyatt is CORL Dream of Me, the 2000 National Junior Heifer Show Grand Champion Female. She is now owned by Thomas & Son Farms.

Of the series of herd sires that were selected for use at Express, the investment of Wulf's Count Down ranks near the top. He was selected from the 1995 Wulf's Opportunity Production Sale, and the influence of the son of LKCC Tomahawks Touchdown from Miss Wolfette 9051X has been immeasurable. From an embryo mating with Cane Ridge Daphne 011D, an extraordinary flush of calves were produced sired by Wulf's Count Down. EXLR Dakota 353G was the \$75,000 herd sire that was the Grand Champion Bull at the Houston Livestock Show and North American International Livestock Show. His flush brother, EXLR Intrigue was the Grand Champion Bull at the Fort Worth Livestock Show.

The progeny of EXLR Dakota 353G has made a dramatic influence on the breed. His progeny have been as successful in recent years through the show ring as any other sire. His most celebrated son is the homozygous polled AUTO Black Dakota. He was purchased as the top-selling bull through the National Western Stock Show, and since that time his progeny have paced the breed in terms of performance, milk, carcass traits and show ring accomplishments. He has been one of the most broadly used sires in the breed. He, of course, is the sire of the EXLR Luvly 084F son, EXLR New Generation 071M, the \$130,000 syndicated 2004 National Western Grand Champion Bull.

Wulf's Guardian 5074G was purchased by Express Ranches and ABS Global through the 1998 Wulf's Opportunity Sale as the year's \$80,000 top-selling bull. The influence of the calving ease sire, through his sons and daughters, has been a big part of the entire breed. Perhaps his most popular son, EXLR Judo 459J, was the top-selling bull in the Fast Forward VIII. His son, in turn, is EXLR Native 7133N, the homozygous polled and homozygous black son from TRAK EXLR

Annie. The bull, co-owned with Deer Valley Farm, was the Grand Champion Bull at the 2005 All American Futurity.

Wulfs Dawson, the son of LKCC Tomahawks Touchdown and full brother to Wulfs Quarterback, made a big impact on the herd soon after his arrival. The daughters of Wulfs Dawson have had a dramatic influence on the milk production and udder quality of the Express cowherd. Many of the female champions exhibited over the years were sired by Wulfs Dawson. Two of the most significant Express donors, EXLR Luvly 084F and EXLR Rebeca 614H, are daughters of Wulfs Dawson. His most illustrious son, EXLR Polled Benchmark, was the Grand Champion Bull at the 1999 National Western Stock Show. His daughters are now a major portion of the Express cowherd; and his son, EXLR Limited Edition was the top-selling bull at the 2000 National Sale in Denver.

Two powerful maternal sires, Wulfs Endurance 3097E and Wulfs Fanfare 4055G have aided in the perfection of the Express Limousin Females. Wulfs Endurance 3097E is the sire of EXLR Laynee, Blake Yackley's National Junior Heifer Show Grand Champion Female. Wulfs Fanfare 4055G is the birth weight, milking ability and marbling trait-leading sire. EXLR 199H sons represent one of the most prominent lines of Limousin females ever created at Express. The dam of EXLR Excellante 251L is a trait-leading daughter of Wulfs Fanfare. Yet another daughter was the Grand Champion Female at the 2005 Houston Livestock Show.

RADS Black Prodigy is the homozygous polled and homozygous black son of COLE First Down whose influence is obviously permeated through the genetic fiber at Express. His daughters are among the good milking females, especially when his service is stacked on top of the already superior milking lines. Although deceased, his influence will continue, especially through the lower percentage and Lim-Flex program. His daughters and granddaughters are well-represented in Fast Forward XV.

Through the Coleman Limousin Ranch 2003 Production Sale, three homozygous black herd sires were selected by Jarold Callahan: COLE Montana Sky 36M, COLE Maelstrom 38M and COLE 61M made the trip to Yukon. The three herd sires were sampled in all segments of the Express program. All three sires are represented in the Fast Forward XV. Their pedigreed ancestors are of the best cow families in place at the Coleman Limousin Ranch.

The latest significant herd sire additions to the Express program are three of the best sons of GPFF Blaque Rulon. The headliner thus far is LESF Asphalt 9N. The top-selling bull at the 2004 Ohio Beef Expo has exceeded all breeding expectations and his female progeny are highlighted in Fast Forward XV. His ownership is shared by Heartfelt Farms, Gettysburg, Pennsylvania. Carrousel's Pure Power was the most exciting herd sire in the 2005 Denver Yards. The bull came to Express through a private treaty purchase from Carrousel Farms. Carrousel's Peak Power, the top-selling bull at the 2005 Iowa Beef Expo was purchased in partnership with Top Meadow Farms and Express Ranches. His service is featured though the Fast Forward XV with many of the yearling heifers that sell.

No program in the twenty-eight-year North American history of the breed has invested in more herd sires than Express. These sires have been judiciously mated to the Express cowherd and donors. The results are ceremoniously offered in the female lots of the Fast Forward XVI.

Perhaps the most significant event in the history of Express was the selection of AMBL Luvly 340Y, the fullblood daughter of TEXS Ranger Ted, from the 1994 Rocking AC Production Sale. From the embryo flush with Wulfs Dawson, three of the breed's most proven females were created. EXLR Luvly 081F, now owned by Deer Valley Farm is the dam of EXLR 231J, and in turn, the maternal granddam of the homozygous polled EF Main Stay. EXLR Luvly 087F, in the Pinegar program, is the dam of AUTO No Money Down 147J, the son of Wulfs Guardian. Yet another younger sister, EXLR Luvly 002H, co-owned with Niemann Farms, was the Reserve Grand Champion Female at the 1999 National Western Stock Show. EXLR Luvly 084F has re-defined the meaning of "super cow." She is without a doubt the highest Limousin female revenue producer at Express and perhaps the breed worldwide. The countless champions, donor daughters, herd sires and grand progeny make her one of the greatest Limousin females to ever live. One-half interest was purchased by NP Enterprises through the Fast Forward V for \$16,000. She later sold in her entirety as lot 1 through the Fast Forward IX to Turner Farms for \$40,000. She, along with the entire Turner Farms Limousin herd, was repurchased in 2003 by Express Ranches. Her influence has positively affected virtually every major herd in North America. EXLR Luvly 084F is now owned by Riverdale Ranch.

LVLS Rebeca is the most prolific of all the Limousin donor females at Express. In excess of 150 calves have been born from this daughter of Polled Pack Leader. There are now four generations of LVLS Rebeca seedstock scattered across the

United States and Canada. It is obvious to see the impact of this great cow when scanning the pedigrees of the individuals involved in the Fast Forward XVI. Daughters, granddaughters and great-granddaughters are a significant part of the offering. She has had a big part in supplying genetic excellence to Express' growing Lim-Flex program through direct descendents and through her daughters and sons. The genetic progress at Express is due to the large influence of LVLS Rebeca.

Cane Ridge Daphne 011D has left a long and lasting legacy in the Express herd. The full sister to Cane Ridge Polled Wyatt and Cane Ridge Maverick is one of the most impressive females living. She was the top-selling female in the Fast Forward VII when Deer Valley Farms had the winning bid at \$79,000. The female continues to make an impact at Deer Valley and her influence through her sons and daughters continue to be realized at Express.

One of the first and most significant female purchases was made in 1991, when WLCC Phoebe, the 1990 National Western Grand Champion Female was purchased from Al Bruner's AMB Limousin program in Grants Pass, Oregon. From this female came the entire cow family known as the Sheza Dandys. EXLR Sheza Dandy 38D by SY Bonanza, capped her show career by being crowned the 1997 National Champion Female at Louisville, Kentucky. From this female, the progeny winnings have lined every wall and trophy case at Express. The most recent honor for a member of the EXLR Sheza Dandy 38D family is her granddaughter, EXLR Sheza 518P, the Grand Champion Female at the 2005 National Junior Heifer Show, owned by Michael Mitchell, Mangum, Oklahoma.

The Lim-Flex cowherd base is growing at Express Ranches. The Angus herd is one of the driving forces in the industry; and the Limousin gene pool has been expanded with the infusion of the exclusive donor females and herd sires from the Angus side of the program. The best of both worlds is offered in the Lim-Flex program; and the highlighted individuals in Fast Forward XV deserve special attention.

More than a decade ago, an important chapter of Angus history began as Bob Funk and Jarold Callahan negotiated the purchase of the B&L Ranch near Shawnee, Oklahoma, and the B&L Angus cowherd from the Oklahoma Cattlemen's Association Foundation. With that transaction, Angus cattle became a part of the growth and expansion of the Express Ranches enterprise. A few years later, after his tenure as an academician as both a teacher and judging coach and a successful leadership role in the Oklahoma Cattlemen's Association, Jarold Callahan joined Express Ranches as the Chief Executive Officer. Uniquely located with ideal access to both a high percentage of the nation's cow herd and a high percentage of the nation's feedlot capacity, Express has become a crossroads for all segments of the beef industry. Five production sales each year share Express Angus and Limousin genetics with all types of cattlemen.

Express Ranches is an active participant in every phase of the beef production process, and feeds as many as 50,000 head of cattle per year. Together with its partners in ORigen, Express is now involved in an alliance with the world's largest cattle feeding company, Five Rivers Cattle Feeding LLC, and National Beef, the industry's most quality-focused packing company. The genetics being developed, tested and marketed by Express are required to satisfy the needs of every step in the production chain. Express Ranches is ranked the second largest seedstock operation in America based upon sales records compiled by Cattle-Fax and published by NCBA; and Express will sell more than 3,000 head of Angus, Limousin and Lim-Flex genetics during the coming year. As the demand for bulls with the recognized EX brand and prefix has grown.

Today, Express Ranches operates on over 175,000 deeded and leased acres in four states. 5,000 pedigreed females make up the Express cowherd and the ranch has in excess of 30 employees. As one digests and analyzes the information in the Fast Forward XVI catalog, the families and cutting-edge genetics synonymous with the Express program are offered for others to perfect and develop further from this existing advanced status.

# Scholarship Program

## INTRODUCTION

The Express Ranches Progressive Junior Scholarship Program is designed to help America's youth to continue their education by enrolling in undergraduate courses of studies at an accredited two or four year college, university or vocational technical school. It is designed for juniors who want to accumulate scholarships year after year.

## ELIGIBILITY

1. The animals must be purchased from Express Ranches at public auction or by private treaty.
2. The animals must be bought and registered by a junior and be in his/her name.
3. The year of purchase and receipt of payment determines which year you will qualify under the graduated program: If you purchased and paid for an animal in calendar year 1995, that is year one. Animals purchased and paid for in subsequent calendar years qualify you for additional years. If any year is missed, the future purchase will be credited to the next year of purchase. (i.e. If you purchased in 1995 and 1997, then 1997 would be the second year of purchases.)
4. The year of purchase (one, two, three, four or five) not the year of the show, will determine which scholarship year will be honored.
5. If the animal wins more than one year in the same show, the scholarship winnings will be honored both years from the year purchase was made.
6. In appreciation for purchasing cattle from Express Ranches in 1994, we will count 1994 as year one for those wonderful buyers. Thank you for your confidence in us.

To qualify for each scholarship, the student is required to submit the proper verification information on the Express Ranches verification form and provide proof of winning. The calculation for the Junior Scholarship will begin in the month the verification papers arrive at Express Ranches.

Each Express Ranches Progressive Junior Scholarship will be funded by Express Ranches in the name of recipient in the Express Ranches Scholarship Program Account.

The Express Ranches Progressive Junior Scholarship will earn 10% interest annually from the month of beginning until the funds are properly distributed to the accredited two or four year college, university, or vocational-technical school. The Express Ranch Scholarship Program will process scholarship awards, to the schools, in mid-August and mid-December. Checks will be made payable to the educational institution only. Qualified expenses include tuition, books, related fees, and room and board. Qualifiers must complete their education at the accredited college, university or vocational technical school of their choice on or before their 30th birthday or the remaining portion of their Express Ranches Progressive Junior Scholarship fund will be forfeited.

There will be a third party advisory board administering the scholarships. The board will be appointed by Express in staggered terms.

The current advisory board is:

Sonny Booth ..... Past President of NALF  
 Keith Kisse ..... National Cattle Sales Manager  
 Jennifer Callahan..... Associate at McAfee & Taft  
 Eddie Sims ..... National Cattle Service  
 Guy Austin ..... Austin Land & Cattle Company

This scholarship will be non-transferable unless approved by the advisory board. Any questions or changes will be decided and or approved by the advisory board. The Express Ranches Scholarship

Program will be audited annually.

## ELIGIBLE SHOWS

**Level I:** National Accredited Junior Show

**Level II:** Denver Junior Show; Louisville Junior Show; Kansas City Junior Show; Oklahoma City Spring Fair; Nationally Sanctioned Regional Heifer Shows; and one of the following Texas Junior Shows, San Antonio, Ft. Worth, Houston.

**Level III:** State Fair Junior Shows, State Fair shows will be honored for the persons in the state of origin. The state of origin is defined as the state or residence of the owners and or the state of your 4-H or FFA chapter. Only one state of origin showing will be rewarded per calendar year.

**Level IV:** State Junior Field Day & County Junior Shows. County shows will be honored for the persons in the county of origin. The county of origin is defined as the county or residence of the owners and or the county of your 4-H or FFA chapter. Only one county of origin showing will be rewarded.

We may review the entire program annually. May each participant work hard, enjoy their cattle and win many scholarships for their future education.

# The Bob Funk & Express Ranches Story . . .

Robert A. "Bob" Funk was born and raised in Duvall, Washington where his father worked for the county highway department. Raised in a family of modest means with a strong Christian foundation, Bob started working on his cousin's farm at 14 years of age and continued working on the farm through his high school years. It was here that he developed his agriculturally based work ethic and his love for cattle. After high school, where he was a member of FFA and played basketball and tennis, Bob enrolled at Seattle Pacific University where he completed a BA in business administration and theology. Following his undergraduate studies, Bob completed graduate work for his Masters degrees in business administration and theology from Seattle Pacific University. An integral part of his graduate work was a year's study of theology at the University of Edinburgh in Scotland - quite an experience for a young man from a rural community in Washington. He holds three honorary degrees: an honorary doctorate of public services from Seattle Pacific University (1995), an honorary doctorate of law presented by Oklahoma Baptist University (2000) and an honorary doctorate of law from Southern Nazarene University (2001).

A consummate "people person," Funk spent the first 17 years of his early career in the personnel business working for Acme Personnel, a Washington based personnel services firm, starting as a personnel consultant and rising to first vice president. When the company's president, Bill Reiff, died unexpectedly, Funk and two colleagues, William H. Stoller and James Gray purchased and operated several franchises of Acme which ultimately became Express Personnel Services. In 1983, the partners began arranging to franchise Express and that first year generated gross revenues of \$2 million in spite of the depressed economy created by the devastating downturn in the oil industry.

In 1983, as a result of the bankruptcy of Acme, the partners acquired the franchise rights to 23 Acme offices across the United States. By 1983, when the first Express personnel office was franchised, the company was experiencing phenomenal growth and within five years, Express ranked among the top personnel firms in the United States. This trend continued through the 90's with sales of \$325 million in 1994, \$1 billion in 1999 and \$1.8 billion in 2006. The number of Express Personnel franchises has grown from the modest beginnings to over 600 franchises today.

While partners, Bob Funk and Bill Stoller, have had many opportunities to take the company public, they have declined as they take great pride in the fact that Express is the only privately held company in the top 20 personnel companies nationwide. Funk believes that when investors are continually looking over your shoulder there is a tendency to be shortsighted, focusing primarily on the next quarter's earnings rather than longer term. "Planning four or five years ahead is much easier without stockholders," he maintains.

At sixty seven years of age, Robert Funk shows no signs of slowing down. He continues to serve as Chairman of the Board and Chief

Executive Officer of Express Services, Inc. In addition he is honored to serve as the Chairman of the Conference of Chairmen, of the Federal Reserve Bank System and Chairman of the Kansas City Federal Reserve Bank serving the 10th District. Further, he is an active member and former Chairman of the Greater Oklahoma City

Chamber of Commerce, the Oklahoma Baptist University Board of Directors. He also sits on the board of Directors of the National Cowboy and Western Heritage Museum and the North American Limousin Foundation where he served as President in 2006.
